

# Learning seminar on quantum Topology

Every Monday 3-5pm  
Starting from March 7

## Topics

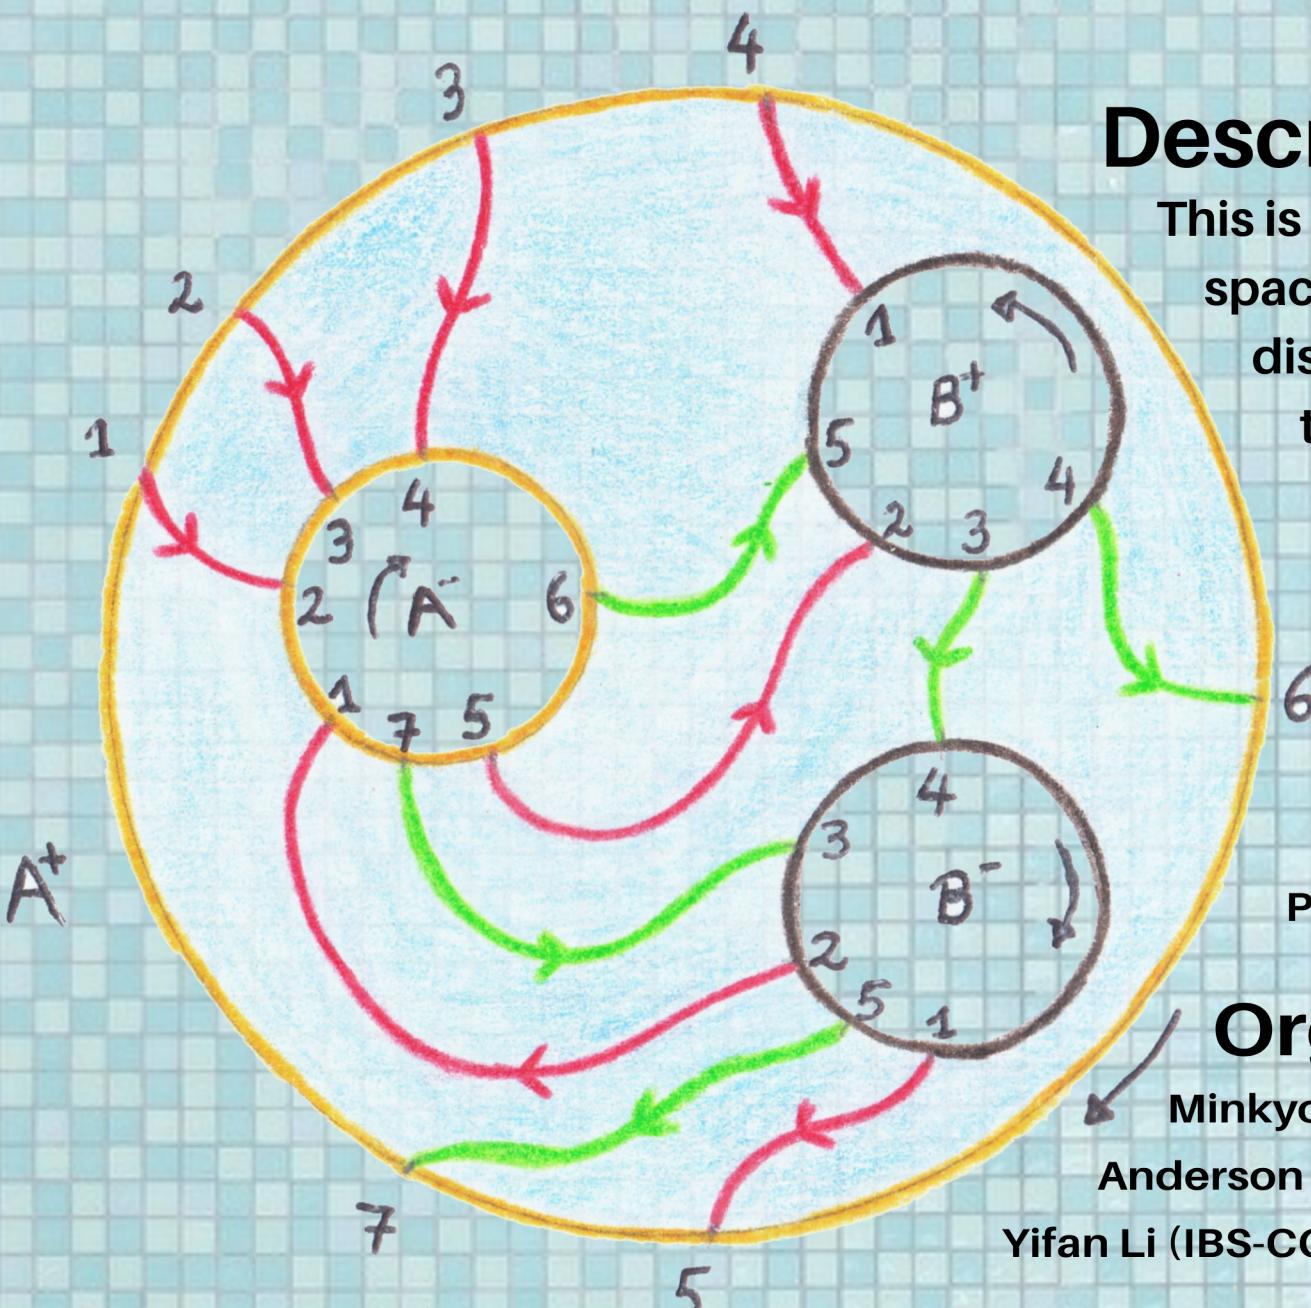

- Kauffman bracket
- Temperley-Lieb algebras
- Triangulations, spines
- Heegaard splittings of 3-manifolds
- Turaev-Viro invariants
- Reshetikhin-Turaev invariants

## Reference Book

*Temperley-Lieb Recoupling Theory and Invariants of 3-Manifolds*

By Louis H. Kauffman and Sóstenes L. Lins

## Description

This is an informal and convivial space whose main goal is to discuss and learn quantum topology and related topics.
